

# T1 LIQUIDCLEAN 200 POUND ACTIVATED CARBON ADSORBER

The STI T-1 Liquidclean 200LB Adsorber is the canister to use for low flow, low pressure water purification applications.

## SPECIFICATIONS

- **CANISTER**
  - 24" dia x 34" ht., 16 gauge carbon steel 5 BDOT drum
  - double epoxy phenolic coating
- **CARBON:**
  - 200 lbs. virgin high activity carbon
- **FEATURES:**
  - 1-1/4" FPT inlet/outlet on top of canister
  - 1-1/4" internal PVC piping provides low pressure drop and eliminates channeling
  - Special "no leak" gaskets
- **OPERATING SPECS:**
  - 10 psi maximum operating pressure
  - 10 GPM maximum flow
  - 1.25 psi pressure drop @ 10 GPM
- **OPTIONS:**
  - Available filled with specialty carbons
  - Polyethylene liners
  - Piping kit with gauges & sampling ports
  - Prefilters
  - Backwashable units

8 x 30 MESH GAC
